

**Kazakh Leading Academy of Architecture and Civil Engineering
(KazGASA/ICE)**

The Kazakh Leading Academy of Architecture and Civil Engineering (KazGASA) is one of the recognized leaders among the higher educational institutions of Kazakhstan. The history of Architecture and Civil Engineering education in our Republic began in 1957 with opening of the first Department of Civil Engineering, as well as the establishment of the first Architectural Department in 1961. For more than 50 years these Departments have been making valuable contribution to the development of economics of the country.

Our main activity is preparation of highly qualified specialists in the field of Civil Engineering, Architecture, Design, Construction Technologies and Management.

KazGASA is a multi-profile Institution and comprises all stages of the educational process – secondary school, Undergraduate, Graduate, Post Graduate and Doctor's Degrees. The institution also contains complex of Collages, which train highly qualified specialists according to secondary vocational education programmes.

For those who wish to improve their qualification or get another Degree, KazGASA provides such programmes in the Institute for Continuous Education (ICE) and Republican Centre for Improvement of Professional Qualification of the specialists in the field of Architecture and Civil Engineering. International relations with foreign partners are increasing and developing, which proves that progressive steps towards integration into the world educational space are undertaken.

The most important achievement and visible proof of international significance for the Academy accreditation of the study program of Architecture at KazGASA by UNESCO UIA Charter for Architectural Education by the UNESCO- UIA-RIBA.

KazGASA is always open to innovations and in the process of reform now. We state high goals and achieve our aims due to hard work, creative approaches, high motivation and strong will! Academy professors and students do their best for KazGASA to be always a leader in Architectural and Civil Engineering Education in the Republic of Kazakhstan.

Views of KazGASA/ICE:
