Namangan State University (NamSU) is the largest among the three higher education institutions in Namangan province, the province which has almost 2 mln population with 7900 km² area located in eastern part on Uzbekistan. It was established in 1942 as a pedagogical institute. Nowadays the university has 6306 students of bachelor's degree and about 200 students of master's degree levels. It has 430 teaching staff which 36 % of them have PhD and Doctoral levels. NamSU offers various courses of study, including 23 bachelors educational programs, 11 masters specialization programs, 10 programs for PhD. These programs are in Languages (Uzbek, Russian, English, and German), Literature, Social sciences, Law, Political sciences, History, Archive studies, Pedagogy, Psychology, Education, early childhood education, preschool education, Sport, applied art, geography, economy, mathematics, physics, chemistry, technical sciences, and etc.

Today the university has academic relationships with more than 100 advanced universities in Europe, Asia and CIS countries. Every year the teaching staff and students attend different scientific events and spend academic visits in advanced universities in developed countries.

NamSU has links with several EU and Asian universities such as Oslo and Akershus University College of Applied Sciences (Norway), Stokholm university (Sweden), Hochschule für Technik und Wirtschaft Dresden (Germany), Magdeburg university (Germany), Varna Technical University (Bulgaria), Holon technological Institute (Israel), Incheon University (South Korea), Malaya University (Malaysia). Our relationship consists of student and teaching staff exchanges, teacher training, knowledge transfer, scientific and academic collaboration.

Department of German Language has active collaboration within the DAAD program of Germany and good links with Goethe Institute.

The department of English Language has actively participating in international events and it has good links with British Council and universities in USA. Several multimedia classrooms are in use by students. The continuous collaboration in the field of translation theory with leading universities are going on. Korean KOICA foundation supports to develop the teaching Korean language at the university

The scientific researches done by scholars in NamSU are conformed with priorities of economic and social developments of the country. There are 4 fundamental, 2 applied, 3 innovative projects are going on under the State scientific-technical program. Much attention paid to support the gifted students at our university. As a result, 50 of them are awardees in academic Olympiads in the country and international levels.

Namangan State University currently exists 23 innovational groups involving 78 teaching staff. The “Problematic topics’ database” is created which contains 138 research themes. These themes are directed to 2 Post-doctoral researches, 37 PhD researches, 16 master theses, 112 bachelor degree graduation papers. The outcomes of those researches are planned to apply in small and medium size business and industry. The university chairs have 9 economic agreements with private and industry sectors which are ongoing collaborative researches. Therefore, the applicability of theoretical research outcomes in industry is prioritized. The flow of extra-incomes from private and industrial sector to the university are also increasing yearly. The major research topics are in polymer chemistry, chemical technology, semiconductor physics, microbiology, natural geography, handcraft, visual painting and etc.

FACULTIES

Faculty of Physics-mathematics

Faculty of Natural sciences and geography

Faculty of Philology

Faculty of Pedagogy and physical culture

Faculty of Social-Economy

ACADEMIC DEPARTMENTS

1. Department of Uzbek language and literature,
2. Department of Russian language and literature,
3. Department of English language and lexis-stylistics,
4. Department of German and French languages and literature,
5. Department of Pedagogy and psychology,
6. Department of Economy,
7. Department of Mathematics,
8. Department of Applied mathematics and information technology,
9. Department of Physics,
10. Department of general technical sciences and professional education
11. Department of Biology and Physiology,
12. Department of Chemistry,
13. Department of Geography and ecological basics,
14. Department of Public Law and procedure,
15. Department of Criminal law and procedure,
16. Department of national idea- basics of law and moral,
17. Department of primary education methodology,

18. Department of music education,
19. Department of Fine arts and applied arts,
20. Department of Physical education theory and physical culture,
21. Department of Physical culture and sport,
22. Department of History,
23. Department of social and cultural activities,
24. Department of Philosophy,
25. Department of theory and practice of building the democratic society.

UNDERGRADUATE PROGRAMS

1. 5110800 - Visual art and engineering graphics,
2. 5110900 - pedagogy and psychology,
3. 5111000 - professional education,
4. 5111100 - music education,
5. 5111300 - Russian language and literature,
6. 5120100 - Uzbek language philology,
7. 5120100 - English language philology,
8. 5120100 - German language philology,
9. 5111600 - National idea - basics of spiritual and law education
10. 5111700 - Primary education and sport education work
11. 5111800 - Preschool education,
12. 5112000 - Physical culture,
13. 5120300 - History,
14. 5220300 - Archive studies,
15. 5112100 - Labor education,
16. 5610400 - Social-cultural activities,
17. 5140100 - Biology,
18. 5140200 – Physics.

Overview the Namangan city with the location of NamSU

Role of NamSU in TuCAHEA project

NamSU is a core-group member in TuCAHEA project and acts as a national coordinator from Uzbekistan. Major activities are expected to hold in Namangan as well as in other provincial parts of the country to extend the dissemination opportunities. Within the project NamSU can implement the followings:

- Developing e-textbooks and handbooks for effective training of teaching staff and students to enhance the comprehensive knowledge and skills in quality issues, quality assurance and management,
- Provision and organizing the trainings, seminars and workshops for teaching and administrative staff as well as students,
- Working towards the project objectives and monitoring the implementation processes within the university,
- Continuous conducting research surveys to enrich the quality assurance system development within the university.
- Dissemination the project skills and outcomes to enlarged group of teaching and administrative staff, as well as postgraduate students

The TuCAHEA team in NamSU

Pulatkhon Lutfullayev

Contact details: mobile: +998 90 3219940, +998 90 7400192

Email: pulathon2001@yahoo.com
